Why not just call Brennan or Trepp or the agency and get the details from them? Trepp got 30mil from them, ask him the questions.

I am only speculating that the information is being used to sway the election. Just cant imagine any other reason why US Governemnt is using this technology to obtain this kind of sensitive information when they know it is illegal.

I must have you assurance that this information will not be leaked to the current administration. Otherwise DM will be arrested and all informationnconfiscated.

Have anyone tried to make contact with John Brennan yet? The DOJ has had five call into DM over the last few days. DM has not responded to any of them. There must be something up.

Yes, I will protect you, and will not reveal my source. If what you say is true, I will report it. If you give me the emails and any other materials that prove the case about Brennan and the others, I will write about it.

You know what would happen if I release Brennan, Tenet, and other intelligence agency emails. I am not sure you guys would really protect me? I would have to have more that your assurance of that. Individuals that has leaked information to your paper in the past, have ended up in jail.

What if I provide you evidence that the technology is being used right now to spy on candidate Romney, and is being used in an attempt to sway the election? Would you report on that? Technology developed, designed, and implemented by Brennan.

Digital Watergate is going on right now by the US Government and I can prove it.

Hard to imagine that you guys would ever report on anything negative regarding Obama?

DM made it clear who was at the building, and why they were all there. There is a reason the CIA and NSA were there, you must know that.

Do you really think the government invoked the State Secrets Priviledge from being embarrassed or conned? Negropte in his in camera declaration, if ever released, was spell it all of out.

They governemnt never wanted information to come out regarding the other work. The program started out spying on terrorist, and under Obama quickly moved to spying on Americans!! A program which was started by Brennan in 2003 and continues to this day. This technology is being used today to spy on Americans, including candidate Romney.

I don't see you ever publishing that information?

Hi. As you recall, we had a very long phone conversation recently where we discussed how it would be good to report on many of the things that we didn't report on previously. I would like to include all of the points that you have raised in my book, and also to write about many of these issues in the newspaper. For the newspaper, I am particularly interested in the issue of Brennan, and his emails and related documents, which you said when we last talked that you might be willing to share with me. So I am open to discussing everything with you.

*Why did you not mention in your story Judge Cooke scathing report against the Warren Trepp, FBI, and other government officials? Judge Cooke reported that DM had his 4th admendment constituional rights violated?*

How can I ever trust that you will report accurate information when your prior story was based on information provided to you by Mike Flynn my ex attorney?
